Very similar to the Pheonix Wright games. Solid graphics, good humor, easy puzzles. A fun little game, especially for free.. Phoenix wright but with a judge who. . Im getting hungry . . TIME FOR LUNCH .. Oh wow. I didn't expect to enjoy this as much as I did. It start off as a copy of the first trial from a certain Ace Attorney game, and yet, it still try to differentiate itself

from it. I really like the variety in choices you can do, to the point of completely overthrowing the trial for a fat stack of cash. It sure isn't the most intellectual game, characters sounds quite stupid at times, but I feel like it's quite well written (especially compared to other free visual novels on steam.) and it's highly enjoyable.. very cute game, though halfway through my mouse broke TT (not the games fault).
